

# > SATELLITE L50-B

Toshiba recommends Windows.

## ● BIG SCREEN. HUGE VERSATILITY.

With a large 43.9 cm (17.3") HD+ display, a wide range of connectivity options\* and a choice of Intel® or AMD processors\*, the Satellite L50-B series is the ideal desktop replacement. Packed with quality and reliability, it has everything you need to take on daily computing tasks that demand both productivity and functionality. So you're all set to switch between email, social networking, photo management, web browsing and office applications. You'll be able to do all this while enjoying a big-screen experience, which draws you in and enables you to get caught up in every detail of your movies and games. Stereo speakers with DTS® Sound™ bring all of your media to life too, with richer, deeper audio – and you can playback music on your smartphone, tablet, portable audio player or PC system speaker wirelessly, via Bluetooth®, thanks to Toshiba Wireless Music (planned from Aug 2014). What's more, the L50-B is fully connected with several USB and an HDMI port – so you can easily transfer data or turn your HD screen into a real multimedia experience. It's perfect for both work and play.

TEG\_EN\_Sat\_L50-B\_DataS\_2014. Microsoft, Windows and Windows 8 are either registered trademarks or trademarks of Microsoft Corporation in the United States and/or other countries. All trademarks are acknowledged. Product specifications, configurations, prices and system component/options availability are all subject to change without notice. Product design specifications and colours are subject to change without notice and may vary from those shown. Errors and omissions excepted.

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modeling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba web site: [www.computers.toshiba-europe.com](http://www.computers.toshiba-europe.com) and/or contact Toshiba Technical Support. - Graphics processor unit (GPU) performance may vary depending on product model, design configuration, applications, power management settings and features utilized. - Part of the main system memory may be used by the graphics system and therefore reduce the amount of main system memory available. - For PCs configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. - For information about upgrading your system memory please refer to the user manual or contact your local Toshiba service provider. - One GB means one billion bytes, accessible capacity may be less. - Wired and wireless communication capabilities to be applied in countries where approved. - Battery life may vary depending on applications, power management settings and features utilized. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba web site at [www.computers.toshiba-europe.com](http://www.computers.toshiba-europe.com). - Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. - Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected. - Please check your system specifications to ensure optimal results. - Certain notebook chassis are designed to accommodate all possible configurations for an entire product series. Your selected model may not have all of the icons or switches shown on the notebook chassis. - Performance may vary depending on product model, configuration, video content/format/settings as well as the performance variations of individual hardware components. Results were achieved on select models and configurations tested by Toshiba at the time of publication.
